Corporate Development

At your request, we have performed the procedures enumerated below with respect to the selected financial data of SKF Industries, Inc. (the "Company") set forth in the accompanying exhibit and to be contained in letters from you to the United States Environmental Protection Agency and selected state authorities. These procedures were performed solely to assist you in complying with the regulations of the United States Environmental Protection Agency under authority of the Resource Conservation and Recovery Act. The procedures we performed are summarized as follows:

1. We compared the amounts in the accompanying exhibit for total liabilities, net worth, current assets and current liabilities with amounts in the Company's consolidated financial statements at December 31, 1983.
2. We compared the amounts in the accompanying exhibit for tangible net worth and for the sum of net income plus depreciation, depletion and amortization to amounts calculated from the Company's consolidated financial statements at December 31, 1983 and for the fiscal year then ended.
3. We compared the response to Item 7 in the accompanying exhibit with data in the Company's accounting records as of December 31, 1983.

Because the above procedures were not sufficient to constitute an examination made in accordance with generally accepted auditing standards, we do not express an opinion on any of the specific items referred to above. In connection with the procedures referred to above, no matters came to our attention that caused us to believe that the specified items should be adjusted. This report relates to the items specified above and does not extend to the consolidated financial statements of the Company, taken as a whole.
